It is the fastest growing central university with more than 5000 students representing all states of our country and even abroad, and over 450 highly qualified faculties across the country.

About the Department : The Department of Chemistry, Pondicherry University was established in 1987 and since then has been doing path-breaking research work in the contemporary chemistry. Major thrust areas of the Department include Organic Synthesis, Nanomaterials and Photocatalysis, Solid State Chemistry, Green Chemistry, Catalysis, Bioinorganic Chemistry, Organometallic Chemistry, Theoretical & Computational Chemistry and Polymer Chemistry. The Department offers B.Sc. Honors (4 years) under NEP, Post-graduate programs in Chemistry including M.Sc. (2 year), M.Sc. (5 year integrated) and Ph.D. program. Success of a large number of post graduate students in national tests, UGC-CSIR, NET and GATE bear testimony to quality teaching in the Department. Similarly, publications in scholarly national and international peer-reviewed journals showcase the Department's achievements.
